

Warning to business owners

Nottawasaga OPP responded to a business on Mill Street in Essa Township for a suspicious person call at 9:23 a.m. on July 15th.

The business staff had two males enter their store and ask to see their debit machine so they could make some updates, the males were suspicious enough that the staff didn't allow it to happen and the males left the business quickly.

The OPP would like to offer business owners the following tips:

? be aware of who you give access to your debit machine,

? ask for credentials if they are not your usual service person, and if you are unsure, contact the police or your debit service provider.
