

Help to save turtles!

Dear editor:

You can help save turtles by supporting the Kawartha Turtle Trauma Centre crowd funding campaign to by new hospital equipment. (Visit:

http://www.csicatalyst.org/projects/44-you-can-save-a-turtle?utm_source=KawarthaTurtle&utm_medium=KawarthaTurtle&utm_term=&utm_content=&utm_campaign=KawarthaTurtle) Any day now turtles will start crossing roads for their spring activities, and sadly many get hit by cars. But you can help! We have 12 years of experience treating and saving thousands of turtles, and returning them back to their wetland homes once they are healed. Saving even one adult turtle can make a difference to a wetland! Will you join us in saving a turtle, and spreading the word? Let's work together to save the turtles this spring! And pass it on!
