COLOURING CHAMPION! - Alicia Lyn was the winner of our 1st Annual Hallowe'en Colouring Contest in our Age 6-10 category. Alicia brought her submission with her to our Spooktacular event, held at our office on Main Street last Saturday. Her picture was chosen as the winner because of the obvious time she spend colouring and then "bedazzling" her creation. Congratulations Alicia! For more photo highlights from our 1st Annual Hallowe'en Spooktacular, see PAGE 2.

Sprague inquest adjourned indefinitely

BY WES KELLER

What happens when there's a death in a jail cell in Dufferin County? If the November 2010 death of Adam Sprague, 25, is typical, there would be an investigation by the provincial Special Investigation Unit followed by Police Services Act disciplining of one or more officers and, most likely, changes made to how cells are monitored.

And then, three years later, there would be the mandatory coroner's inquest. At that late date, the inquest would be likely to hear only a rehash of commonly known information as the SIU would have left no stone unturned in its

investigation.

And the parents and loved ones of the deceased would be forced to relive the horrors of the death for a third time.

And, as appears to have happened at the Sprague inquest, the coroner and the jury would be searching for new information on which to make recommendations - which is a principal part of their job.

Dufferin County has holding cells at three locations: the OPP detachment at Primrose; the Shelburne Police Department; and the Orangeville police station where Mr. Sprague died on Remembrance Day 2010.

Whatever the eventual in-

they would apply not only to those three locations but also to every police service in On-

tario. It's not known when the Sprague inquest will wrap up. It got under way a week ago Wednesday and stood down Friday with the expectation that it would resume by Tuesday. Now, according to Hamilton Crown Attorney Karen Shea, who acts as counsel to the supervising coroner for the Central West Region, it will be recalled after there has been a meeting in the near fu-

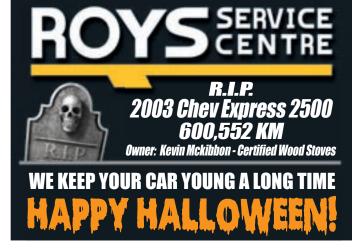

On recommendations, it is expected that the jury would

quest recommendations are, call for more frequent monitoring of cells along with a definition of what is expected of the monitor.

Apart from the inquest, there have been suggestions that police need to be taught to distinguish between intoxication by alcohol and by narcotics.

In the case at hand, Mr. Sprague was found to have been unlawfully arrested for intoxication in a public place while he was in the garage of a private residence.

The autopsy revealed that he died of an oxycodone overdose. One published report said that there was an absence of alcohol in his blood.

New \$5 and \$10 polymer bank notes coming Nov. 7th

It's official! Canada's new \$5 and \$10 polymer bank notes are coming on November 7th. These final two notes will hit the street on that afternoon and complete the new Polymer series roll-out. With all five denominations in circulation, it will mean a whole lot of brand new polymer bills in Canadians' wallets. These new notes, like the new paper notes that came before them, may stick together at first. They may also feel slippery in your hands. But these tendencies will disappear as the notes circulate. The Bank of Canada wants to help Canadians with the transition to polymer. So here are some tips for handling the new notes. Separate them first: you can quickly fan, tap, shuffle or snap the notes before counting them out. And as you count them out, you may find it easier to use your thumb to push the top bill into your other hand. Just keep in mind that the newness or occasional stickiness is only tempo-

Me 2 U Sale this Saturday

Gently used and new one of a kind items will be on sale, this Saturday at the Centre Dufferin Recreation Centre (Shelburne Arena). The event runs from 9 a.m. - 3 p.m. and includes clothing for adults and children, toys, baby items, crafts, original art, housewares and more! Stay, shop, support local.

This Sunday November 3rd at 2 a.m., Daylight Savings Time ends and the clocks turn back one hour. Don't forget to turn your clocks back 1 hour before you go to bed this Saturday night. This is also a good time to change the batteries in your smoke detectors and carbon monoxide detectors.

Deb Freeman of the Shelburne Free Press presented Karl Bowman with the C.D.D.H.S Business Department Award consisting of a \$100 Bursary towards Bowman's further studies which he now continues as a Fanshawe College Student enrolled in the business program.

BY ALEX SHER

Excitement filled the halls of Centre Dufferin District High School as Graduation ceremonies commenced on Friday, October 25th in an air

of accomplishment as students returned to Shelburne from Universities and Colleges, and the workforce, a little wiser, a little taller, and a little older than when they left.

mencement ceremonies at the beginning of the new school year for the students of the previous year for a very long One of the most positive

things about conducting the ceremonies in this time frame is all the students get to see how different they are now and how differently they feel after having been away to College or University and in returning to high school, can really see how they have grown. We're really proud of our students."

And students seem to agree with that statement as the happiness and familiarity exhibited by the students met with a newly acquired air of maturity able to appreciate their accomplishment and the teachers who helped them achieve their goals, as smiles, laughter and resounding cheers echoed through the gymnasium during presentations.

A keen sense of pride and admiration was reflected amongst students and teachers alike as awards were presented and proud parents watched. Mayor Ed Crewson also in attendance can mark another successful milestone as Mayor of a town who can boast such accomplishment as Shelburne's quality high school produces yet another group of wonderful young people making their way into the world of professionals, accomplishing their academic goals.

Shelburne Free Press awarded Karl Bowman with a \$100 bursary for the C.D.D. H.S Business Department Award presented by Shelburne Free Press Accounts Manager/Office Executive, Deb Freeman. Bowman now attends Fanshawe College in London Ontario enrolled in the business program.

"Right now it's a bit of a review of what we already know, but I'm really enjoying it. Thank you very much for the Award," commented a grateful

Student of the Year Award donated by Mr. George MacK-

Bowman set on a bright future. MacKay, went to Steve Stewart. Congratulations to all on behalf of the Shelburne Free ay in honor of his wife, Jean Press.

Ontario mayors plan **Automotive Summit**

Mayors from across Ontario are reactivating the Automotive Mayors Caucus to organize an automotive Policy Summit next year.

the following recommendations: 1. Request the creation ment to increase awareness of of a Premier's Auto Champion – an official in the Premier's Office to champion an overall Canadian economy. enhanced auto strategy for Ontario. This representative last Thursday and Friday to will work in collaboration hear from a series of industry with relevant ministries, including the Ministry of Economic Development, Trade and Employment. 2. Request Auto Mayors representation in strategic auto policy groups - including the Canadian Au-

tomotive Policy Partnership and the Canadian Automotive Partnership Council, to formulate coordinated policy positions. 3. Launch auto sector The Mayors also agreed on awareness campaign – work with other levels of governthe strategic importance of the auto sector to the Ontario and

> The Mayors met in Oakville experts who discussed the economic outlook and importance of the auto industry to Ontario's economy. The experts stressed the need for Canadian auto production to keep pace with global sector growth.

Upcoming events at the **Dufferin County Museum** & Archives

DCMA Live Learning Presentation Series: Talk 1 at 1:30 p.m.: "Press, Propaganda and the Official Record"; Talk 2 at 3 p.m.: "War Tales from Dufferin", presented by Steve Brown, DCMA Archivist on Saturday, November 9

Press, Propaganda and the Official Record:

See and experience how fascinating images of the Canadian Army Film and Photo Unit and two war photographers from Dufferin - Ken Bell and Gerald Richardson - influenced our local and Canadian view of World War II. PLUS ON EXHIB-IT from November 2 to November 13 is a collection of Richardson's original photographs. War Tales from Dufferin:

World War II abounded with stories and Dufferin County was no exception. Learn the truth behind the story of Etsel Cook and Kurt Meyer's stand-off after D-Day, about the HMCS Orangeville and more. Presented by Archivist, Steve Brown. Tickets: \$10 for both talks.

The Dufferin County Museum & Archives is located at 936029 Airport Road - Corner of Highway 89 & Airport Road – in Mulmur.

PHOTO BY JEFF DONER

Tosorontio Public School student, Lilliane Dionne, was one of 20 children chosen to ask famous Canadian astronaut Chris Hadfield a question via web cam last week. She asked, "What was the most concerning aspect related to our impact on the environment that was evident to you from space?". Pictured: Dionne listens, along with her Grade 6 class, as Hadfield replies.

BY JEFF DONER

As part of a Canada-wide event involving over 200 schools, one of Tosorontio Central Public School's own students was given the opportunity to ask astronaut Chris Hadfield a question via web cam last week.

Out of the all schools to participate and submit questions, grade six student Lilliane Dionne, was one of the lucky 20 chosen to ask the famous astronaut a question.

SHELBURNE

Dionne, although admittedly "a little nervous" prior to asking her question, was eager to ask Hadfield the question that her and her classmates came up with.

When her turn came up and with many of her fellow students watching, Dionne asked: "What was the most concerning aspect related to our impact on the environment that was evident to you from

She also thanked Hadfield

on behalf of her fellow students for being an inspiration to so many.

> Hadfield's response was one that had all the students listening intently:

"To me it's water. Water is really the key. The vast majority of water on earth is salt water and only a tiny, tiny fraction is fresh water and if you look at some of the big seas in the world, because of really bad planning and bad management, we as people dry it up... Without water we're done. Water is really important just for life and if you look at the Great Lakes in Canada and the United States right now, as long as we've been measuring the Great Lakes, they have never been lower than they were last year. So it's really

something to think about and it's one of the things I worry about the most when I look at the impact on our environment and the long-term symptoms of the division of fresh water and something we need to think about every time we flush the toilet and run the tap. We all need to think about our particular influence on the environment and think about water and ways to conserve it and think about leaving enough water for the people who come after you."

He also told the students that the decisions they make inspire those around them every

Afterwards, Dionne said Hadfield's answer somewhat surprised her and some of her classmates.

"I didn't expect it to be about Space Agency (CSA) and the water, I would have thought it would be like how much trees we cut down or something. And I didn't feel as nervous as I thought I would be," she said smiling.

Dionne also said there was another message from Hadfield that resonated with her.

"I like how he said love every step when you're going toward your dream and the inspirational part when he said it makes you feel good when a random person comes up to you to say thanks for being inspirational."

The question and answer opportunity with Hadfield was organized and hosted by The National Film Board of Canada (NFB), the Canadian curriculum."

Canadian Museum of Nature (CMN).

Questions from the schools mainly centered around Hadfield's journey to becoming an astronaut and his experiences while aboard the International Space Station last year that captivated the country.

Tosorontio Central PS principal, Don Shackell, said students had been looking forward to hearing from Hadfield.

"They've been very excited," he said. "Chris Hadfield is a hero to them and we focused on him a lot last year when he was up in space and it's great to be able to do this because it links what's happening in the world to our school and the

Artist talk

Multidisciplinary artist and University of Waterloo Fine Arts Faculty Bruce Taylor will speak about his practice, which includes large-scale ceramic sculptures, and challenging the perceptions of a traditional medium.

Taylor was born in Montreal, Quebec. He received his MFA from the Rhode Island School of Design (1989) and joined the Department of Fine Arts at the University of Waterloo in 1993. He has taught at the Nova Scotia College of Art and Design, Emily Carr School of Art and the Rhode Island School of Design. He has been the recipient of several national and international prizes and awards and is the only Canadian to have a work featured at the Olympic park in Amaroussion Greece. (2004 Olympics), Greece. His work is represented in the following public collections: • The Gardiner Museum of Ceramic Art, Toronto, • Canadian Clay and Glass Gallery, Waterloo, Ont. • Tajimi City, Mino District, Japan, • Burlington Arts Centre, Burlington, Ontario, • World Ceramic Center in Ichon, Korea, • University of Waterloo, Waterloo, Ont. • Olympic park in Amaroussion Greece, • Yingge Ceramics Museum, New Taipei City, Taiwan

Bruce Taylor will speak on 'Contemporary Ceramics Practice' on Thursday, November 7, 7 p.m. at Elora Centre for the Arts, at 75 Melville St., Elora. 519-846-9698. www.ecfta.ca

Ask a psychotherapist must feel in this situation. Question:

about this because I'm a guy and if anyone's going to be abusive in a relationship it should be me, right? You always hear about women getting beat up or called names but sometimes it's the guy who's taking it. In my case, my wife always accuses me of things I didn't do. She reads my emails and texts and accuses me of having someone on the side. She's constantly screaming at me or giving me the cold shoulder and threatening to leave and take the kids. I've never cheated on her and I wouldn't but she won't believe me. Now I'm terrified of losing her and the kids. I can't sleep, I'm losing weight and the constant stress is starting to show at work. What should I do?

Answer:

I appreciate the courage it must have taken for you to write and how desperate you

I feel stupid writing to you While the majority of victim of spousal abuse are female, there are a significant number of male victims. This can take the form of physical violence but more often it falls under the category of emotional abuse. Emotional abuse includes name calling, excessive criticism, contempt and what you have termed "the cold shoulder". It can be expressed as pathological suspicion and jealousy and in attempts to control the partner generally. Sometimes the abuse is delivered via a contemptuous tone of voice, eye-rolling or a disgusted look.

> The impact of emotional abuse on the victim is to undermine self-esteem and any sense of well-being. No one, male or female deserves to be abused physically or emotionally in an intimate relationship. While abused women may be willing to talk to friends about their situation, abused men often isolate themselves, feeling ashamed that this is happening to them. I advise you to talk about the abuse to someone you trust, ideally a therapist with experience in this area.

\$50,000 theft of snow tires and rims

Crime Stoppers of Simcoe-Dufferin-Muskoka along with the Barrie Police Service are requesting the assistance of the public in solving this crime.

Sometime over the Thanksgiving weekend between Saturday October 12th and Tuesday October 15th a break, enter and theft occurred at Douglas Ford Lincoln at the corner of Bayfield Street and Cundles Road.

Unknown suspects entered

the rear yard area of the car dealership and stole approximately \$50,000 worth of snow tires, rims and other vehicle accessories.

Due to the large quantity of items that were stolen, a cube van or other type of large vehicle was likely used by the suspects.

Barrie Police is continuing their investigation and would like to hear from anyone who saw a large vehicle at the rear of Douglas Ford during this time period.

Snow tires and rims don't Someone disappear. knows where they are.

Please call Crime Stoppers at 1-800-222-8477 (TIPS) or go to www.tipsubmit.com to send an anonymous web tip.

Crime Stoppers does not subscribe to call display and you will remain anonymous. Being anonymous, you will not testify in court and your information may lead to a cash reward of up to \$2,000.

First snowfall causes problems for some motorists

Grey County experienced its first blast of winter weather as snow and precipitation began falling late Wednesday night, October 23rd and into Thursday morning, October 24th. Within a 24 hour period, Grey County OPP responded to 14 motor vehicle collisions and 4 traffic hazards calls. The vast majority of the calls were in the Municipality of Grey Highlands, where police received reports of vehicles in ditches. Several tractor trailers (6-7) travelling northbound on Hwy. 10 were unable to crest a hill just south of Markdale due to the accumulation of snow and slush, causing traffic to back up on Hwy. 10. An OPP cruiser was damaged after the vehicle entered a ditch and rolled on Hwy. 10 near Crawford Rd. while responding to a collision between a tractor trailer and a van on Hwy. 10 near Berkley. Other collisions included a car vs deer and car vs mail box. Despite all the incidents, there were no injuries reported.

This week in police news...

sponded to 75 calls for service between October 20th and October 27th.

Unique Call: "Camel on Roadway":

It was around midnight on Wednesday October 23rd. It was snowing. Shelburne Police and Dufferin OPP received several calls for a camel on highway 10 on the north edge of Shelburne.

Officers found the camel on highway 10 licking the salt on the roadway. With the assistance of the owners of the animal, the camel was returned to its barn at the corner of Highway 10 and 4th Line of Melanchthon.

Fortunately there was no collision involving the camel. However the incident did provide entertainment for onlookers as police and the owners tried gaining the animal's co-operation.

Male Arrested and Taken to Bail Court for Breaching Several House Arrest Conditions:

25 year old Michael BEL-ROSE was arrested, charged with three counts of breaching his court recognizances.

During the early morning hours on Saturday October 26th Shelburne Police responded to a call for a suspicious male at the MTO yard on County Road 124. The male was identified as Michael Belrose of Shelburne and the investigation revealed that he was on a bail release from the Toronto courts as a result from three different arrests by Toronto Police dating from June, September and October 2013. The court bail release conditions included house arrest at a residence on Sandhill Court in Shelburne. The three Toronto incidents include charges in relation to drug trafficking, obstructing justice, prowl by night, theft, break and enter and court recognizance breaches.

As a result Belrose was held in custody awaiting another bail hearing.

Business Fraud Prevention Seminar: Wednesday November 6th - Part of Crime Prevention Week:

Every year the Ministry of Safety and Correctional Services designates a week in November as Ontario Crime

Shelburne Police Service re- Prevention Week. Police services throughout the province take advantage of this week to focus on crime prevention awareness and education in their communities. Again this year the Shelburne Police Service is joining this effort to promote a safer or more crime free community.

> This year the Shelburne Police Service is putting the focus on preventing crimes at our local businesses. The goal is to make local business owners and managers more aware and better educated on the prevention of fraud, theft and other property crimes. The Shelburne Police regularly investigates frauds, thefts and other property crimes that not only cost businesses money, but are very frustrating and disheartening for the business owners and managers who take pride in their role in the community.

> As part of this initiative Shelburne Police is hosting a Business Crime Prevention presentation on Wednesday November 6th at 7 p.m. The presentation taking place at Grace Tipling Hall (Town Hall) will focus on two main areas: Fraud prevention and Crime Prevention through Environmental Design.

> The fraud prevention portion will focus on credit cards, quick change artists, gift cards / vouchers and price tag switching. The event will explain how these crimes work, how to prevent them and what to do if a fraud is suspected.

> The Crime Prevention through Environmental Design (CPTED) portion of the evening will be presented by an officer with specific training in this area. CPTED is an approach to crime prevention that developed through various studies and crime statistics. Is your business an easy target for crime? Or is your layout, lighting and other security measures making criminals think twice about targeting your business?

> The invitation to this free event is open to all local businesses – just show up on Wednesday November 6th at 7 p.m. There will be light snacks and beverages provided.

> There will be a question and answer period immediately

following the presentation.

"Grandma I need money" -Watch Out For This Fraud:

Residents in Shelburne reported receiving calls for young males asking for help and money. In one case a youth requested \$2,500. These residents hung up recognizing there was something suspi-

This type of fraudulent activity targeting seniors is not new. Typically a young person calls a senior citizen claiming they need bail money, or they got involved with the wrong people and owe money, or they are out of province or country and need money to get home. The young person pleads with the senior not to tell anyone including mom and dad about the situation and provide information how to send or "wire" money to an account.

Occasionally a kind hearted senior follows through with the request, assuming it is actually their own grandchild.

Never send any money anywhere without verifying who is calling and their story. This can be done by:

- contacting other family members (chances are your grand child is at home right where they are supposed to
- checking with local police or the police in the area where the young person claims to be
- asking detailed questions that only your grandchild will know the answer to

Remember to always contact the police or the Canadian Anti-Fraud Centre about any suspicious phone calls, e-mails, mail or home visits.

Shelburne Police Partnering with Centre Dufferin High School for MOVEMBER:

Members of the Shelburne Police Service will be teaming up with the Centre Dufferin District High School to participate in "Movember 2013." Police, teachers and students of CDDHS will be sporting moustaches to raise money and awareness for prostate cancer during the month of November.

If you wish to participate or make a donation please enquire with the Shelburne Police Service.

FLU CLINIC

Once again flu season is just around the corner and The Shelburne Centre for Health is holding the following Flu Clinics by appointment only:

Monday, Nov. 11..... 1:00pm – 7:00pm Monday, Nov. 18 9:30am – 4:00pm

Please call 519-925-0017 to book your appointment or for more information. We ask that you please remember to bring your Health Card to your appointment. If you receive your flu vaccine elsewhere please call us so that we can update your medical record.

WHY DO WE PAY INSURANCE PREMIUMS?

We all do it!! We pay for comprehensive insurance coverage on our vehicles every time it comes up for renewal but when we need to use our coverage we are afraid to do so because we are afraid our premiums will go up. It's sort of like buying a barbecue every single spring and never cooking a steak all summer. We pay for insurance for a reason. If you have a broken windshield and you have comprehensive insurance on your vehicle than using it is fairly logical. You save money in almost all instances, and provided you are not abusing your policy using your insurance when paying for a windshield won't affect your premiums. You can ask your broker if there will be any negative ramifications from doing so and if you haven't had any recent claims they will tell you there wont be 90% of the time. At Diamond Auto Glass we work with all Insurance companies and include a lifetime warranty on all our installations, as well as a free interior and exterior car clean with every insurance claim processed. Give us a call at 519-925-8611 and we will guide you through the process of benefiting from the policy you are paying for anyway.

Soaring Heart Clinic's group healing workshop very healing indeed!

SCAN FOR UPDATES!

PHOTO BY ALEX SHER

Angelo Corriero, Intuitive Healer and newest member of the Soaring Health Clinic Team conducted a Group Healing Workshop where John Caravaggio, owner of Caravaggio's Pharmacy was in attendance as Corriero guided the group, teaching everyone how to allow their bodies to communicate with their minds and hone in their own ability to heal themselves.

BY ALEX SHER

Gathered at the Shelburne Public Library conference room on Sunday October 23rd, Soaring Health Clinic Owner, Jodi Jones and Angelo Corriero, Intuitive Healer, new to the Soaring Health

Healing Workshop.

During a relaxing and informative 90 minutes, 35 year old Corriero encouraged all in attendance to relax, breathe and 'find your frequency', explaining that rate of breathing

Clinic family hosted a Group will be different for everyone as they become a tune with their own bodies and allow our natural light to shine

> through. "I know Jodi quite well and I've had a session with Angelo myself previous to the

workshop. I came with my daughter who had been having some trouble sleeping," commented John Caravaggio, owner of Caravaggio's IDA Pharmacy located on Main St.

Caravaggio has a veracious mind commenting, "I'm interested in this stuff. It's good to be a tune with ourselves. We are born to be able to do this. Some people don't know they can do it and find they may have feelings about it and have to ask some questions. Some just need a little guidance. I thought it was good, and my daughter told me that night she had the best sleep in a long time."

Though many people do not believe this practice holds much weight in logic or science, Corriero points out, "There is scientific proof we are now aware of. Each person can manifest healing in their own unique way. It may feel beyond rational healing, but when you really think about it-it isn't."

During a meditational exercise, Corriero guided the audience to take themselves out of their rational minds, "Feel changes in magnetic fields, step into the gap allowing us to walk through worlds, we merge, and the lines become blurred and as we a tune to physical anatomy the game changes as universal flow is everywhere."

Working through the natural laws, Corriero, also a certified psychotherapist, encourages people to recognize, 'all is one.' Corriero explains that tuning into vibrations can allow the body to actually communicate with the mind and as Caravaggio explained, some need a little guidance to accomplish that.

As of November 24th, Corriero will be introducing a new learning series that will consist of a six week workshop. For more information regarding Corriero, and upcoming workshops, contact Jodi Jones at Soaring Health Clinic at 519-925-1999, email jodijones@rogers.com or go to www.angelocorriero.com to find out more about newest member of the Soaring Health Clinic team, Intuitive Healer, Angelo Corriero.

Special Note: As of December 1st Jodi Jones and fellow business partners along with Angelo Corriero will be launching the grand opening of a new business in Shelburne called the One Energy Center located at155 Main Street W.

No Frills gets rooftop makeover – adds 481 solar panels

Rooftop solar panels were installed on the roof of John's No Frills in Shelburne earlier this week.

BY WES KELLER

John's No Frills in Shelburne is moving ahead of the town in energy production by the installation of 481 solar panels. Town council is just now in the process of preparing an application for five smaller installations under the feed-in-tariff program (FIT).

The Shelburne No Frills is one of 10 or more corporate Loblaw stores in Ontario where solar panels are being installed this year.

Ontario Power Authority had announced in March 2010 that it had awarded Loblaw Companies Limited approval for rooftop solar installations on 136 of its Ontario grocery implementation, it says among store as part of the approval of 510 FIT applications.

The Authority didn't specify the capacity of the 136 although it said the total capacity of the 510 projects would be 112 megawatts.

Although store owner John van Teunenbroek was aware of the program his specific information was somewhat sketchy about his 481 panels as it is the corporation that's installing the panels.

He pointed out that, although he owns the business, the building belongs to the corporation.

John said he feels the solar electricity generation is "a great thing (and) an opportunity to create a new resource."

For its part, Loblaw Companies Limited is not only producing electricity but is also taking measures to reduce

consumption in its operations. In addition to solar panel other things on its website that it has reduced total energy consumption by 3.1% per square foot in existing corporate stores. Its aim had been to complete lighting retrofits in 80 corporate stores; it completed the refits in 127.

The corporation is also aiming at greater fuel efficiency in its fleet, including a 20% increase in the use of rail trans-

Shelburne's No Frills is John's first store. He said he was employed by Loblaw in Woodbridge and Newmarket for four years from 2004, and then went on a three-year training course before he obtained his Shelburne franchise on Oct. 23, 2011.

A native of Newmarket, he says he's really a small-town type of person. "I love it (here in Shelburne)," he said. "I had no interest in a store in the city."

The Centre Dufferin District High School Royals junior boys soccer team take on the squad from Norwell District Secondary School in Palmerston on the CDDHS home field. The teams played a good game despite rainy and wet conditions.

Redwings still looking for first win lose to Orangeville on Friday

PHOTOS BY BRIAN LOCKHART

The Shelburne Redwings bench watches the action on the ice during Friday night's home game against the Orangeville Americans. The Redwings lost 10-1 in a season which so far has failed to produce a win.

BY BRIAN LOCKHART

For Shelburne Redwings fans, this season has turned into a waiting game after another disappointing loss on Friday night at the Centre Dufferin Recreation Centre.

The Redwings are winless this season and took another hit at their home game losing 10–1 to the Orangeville Amer-

Friday night's game turned into a shooting gallery when the Americans scored four in the first period then did the same in the second frame to lead 8–0 going into the final twenty minutes.

The only Shelburne goal came in the third when Ethan Beardy robbed the Orangeville goalie of the shut-out at 4:17 into the period.

Despite switching goalies, the Redwings had a lot of trouble stopping the aggressive Orangeville squad who were hard hitting on the fore-check.

By the time the third period got underway, the Americans let up and started dumping the puck.

The twenty team Greater Metro Hockey League is spread out all over this season with a few runaway teams at the top of the pack.

The Bradford Bulls are in first place winning 14 of 15 games so far and losing one in an overtime loss.

Tamsicaming is positioned in the number two spot with a 13-2 record.

They are followed by South Muskoka in third place with 24 points after 13 games.

At the other end of the spectrum, three teams have won only twice this year.

Lefroy, Toronto Predators and Sturgeon Falls are are struggling, with Bobcaygeon and Mattawa winning only three after 12 games in.

The Redwings have added a few players to the line-up but are still waiting to bolster their ranks with some players from

home game this coming week-

Instead they will be on the road travelling up to Mattawa to take on the Voyageurs with a 7:15 start.

They will return to home ice the following Friday, November 8, to host the Bracebridge Phantoms.

The puck drop for that game is scheduled for 8:30 p.m. at the Centre Dufferin Recre-

Muskies struggling to get on the plus side

BY BRIAN LOCKHART

The Shelburne Muskies are still looking for their second win of the season after dropping game number four to the Durham Thundercats on Saturday night at the Centre Dufferin Recreation Complex.

The AA squad left with a 5–4 loss to the visitors.

After the weekend the Muskies are in the number six spot in the north division of

the Western Ontario Athletic Association Senior AA league.

After winning game one of the season 6-2 over the Riplev Wolves, the Muskies have been on the negative side however it's still early in the season and a few losses don't mean that much yet.

In game two of the season, the Muskie challenged the Shallow Lake Crushers after finding themselves with a four goal deficit in the second pe-

Returning for the third peri- in that game scoring late in the od, the Muskies notched three to get back in the game but couldn't get in enough to tie it up and they had to settle for an 8-6 loss.

The following night (Oct. 19) they hosted the Elora Rocks for the home opener but had to settle for a 5-1 loss after playing the first two periods and not being able to

Shelburne's Mike Spearing notched the only Muskies goal third period to avoid the shut-

The season is a long way from being over so the Muskies can turn this early season slump around.

The squad will travel to Elora on Friday, November 8, to take on the Rocks with an 8:30 p.m. start.

They will return to home ice at the CDRC on Saturday, November 9, to host the Durham Thundercats. 8 p.m. game time

The nine year-old grade four student plays defence for her team - a position she said is important to keep goals from being scored against them.

"It's about protecting our goalie and helping

joys the sport by playing ball hockey with the Shelburne Shooters ball hockey league in Shelburne.

Katie is a valuable asset to the Wolves Atom squad and plans to continue her involvement in the sport.

PHOTOS BY BRIAN LOCKHART

GOOD COACHING SHOWS - The Shelburne Wolves Atom Rep Team works hard to perfect their technique during practice at the Centre Dufferin Recreation Complex. The Atoms are having a good season under the guidance of some dedicated coaches.

Atom Wolves host season opener

The Shelburne Wolves Atom LL2 Team recently hosted its season opener against its hometown rival, the Atom LL1 team. The game was the team's first time together on the ice this year, but the Wolves gave it their all, battling to a 3–3 tie.

Officials stated each player's drive for teamwork was evident throughout the game.

The first LL2 goal was scored by Griffen Ladner, assisted by Max Dempster and Maya Newmaster.

Ladner then scored again, assisted by Marcus Carvalho. The third goal of game was scored by Cooper Carvey, assisted by Carvalho and Dempster.

TJ Wilson-Daponte held the opposing team to three goals. Officials say the hard work of the LL2 team's defence and forwards; Andrew Bruce, Brandon Casey, Kaleb Martin, Bradley Richards, Alex Roper, Taylor Pate and Liam Young, didn't go unnoticed.

On Saturday, October 26, the Wolves won their first game of season 5-3. Andrew Bruce scored with one and Copper Carvey topped it up scoring 4 goals and earning a well-deserved Player of the Game. Assists went to Ladner, Brandon Casey, Kaleb Martin, Liam Young and Taylor Pate, all with one a piece and to Maya Newmaster with two.

Shelburne returned to Collingwood on Sunday, losing 6–3, Player of Game Griffen Ladner, scoring all 3 goals, unassisted. Way to go Wolves on a great start to the 2013/14 Season.

A special thank you to our team sponsors, Shelburne Free Press and Caravaggio IDA Drugs.

The Shelburne Red Wings Junior "A" Hockey Club is looking for new billet houses to accommodate the teenage players from other countries, who are in Canada at the World Hockey Centre for a maximum of 6 months.

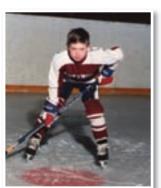

As a billet family you will receive \$550 per month. You will also gain free access to all the home games.

If you are interested please call Leslie Way 519 306 0075 or 519 217 7995 jlcd@rogers.com • www.shelburneredwings.ca

COME CHEER ON THE TEAM!

Michael Tupling Memorial Hockey Tournament

The third annual Michael Tupling Memorial Tournament will be held on November 22nd and 23rd, 2013 at the Honeywood arena. The Michael Tupling Memorial Foundation was established to help encourage youth involvement and leadership

in the community. All the proceeds from this tournament will go towards recreation activities and community projects and help provide financial support for youth in the North Dufferin community who may not otherwise have the financial resources to participate. Register your hockey team and come out to join the fun that includes hockey, music, food, and a silent auction.

Through your participation and involvement, we hope the tournament will have another successful year. We look forward to seeing you at this event and appreciate all of your support!!!

IF you wish to participate in the tournament through donations, silent auction items, or entering a team, please contact Erin Bailey at 519-923-5842, leitherin@hotmail.com or Chester Tupling at 705-627-0672, chester.tupling@premierequipment.ca

SPECTACULAR &SPOOKY HORRIFYING HAUNTED HOUSE - (L to R) When Jeremy Little and Shane Fendly became too old to go trick or treating, the Haunted House idea was born and has been delightfully horrifying kids and adults ever since. Located on 327 Centre Street, this Haunted house offers a graveyard, an Asylum, a butcher shop, and fun house for all to enjoy for free- that is if you are brave enough. Community driven, Little and Fendly hope to beat last year's 230 pounds of donations for the Shepherd's Cupboard Food Bank, and surpass last year's 300 participants. Nine volunteers accumulating service hours will be on hand to help out as the Haunted House runs from 6 p.m. to 10p.m. Go get scared silly for a good cause on October 31st and of course, there is candy to be had on the way out-that's if you make it out! Happy Halloween Shelburne!

NEWS FROM THE CHURCHES —

Crossroads Community Church

Pastor Don was blessed with small tokens of love by the congregation as October is Pastor Appreciation Month.

The morning was cold but the warmth of the Lord ushered us into worship and we were blessed by Robert Young forming a Manly Trio with Brian and Bob leading praise choruses. Pastor Don shared announcements and prayed for those in our midst suffering with health struggles; we especially remember Trent who is at Sick Kids recovering from a Deer Buck attack while on a field trip. _As October is Pastor Appreciation Month Kathleen on behalf of the church presented Pastor Don with a card of gratitude for his ministry and Lori gave him a small heartfelt token of appreciation which brought our Pastor to tears. He then offered the service in prayer and proceeded with the second part of his message "Living by Faith when life doesn't make sense".

This morning we will learn how to have faith in God even when we don't understand what God is doing or why. Let's recall what faith is from scripture; "Faith is the confidence that what we hope for will actually happen; it gives

us assurance about things we cannot see", Hebrews 11:1. Faith is not only in what we see, it is more in what we do not see. Reality is not always the best thing to focus our faith in: it can be very deceiving and disappointing. The Bible makes reference to Trust in God or Jesus, one example in Mark 11:22, " Then Jesus said to the disciples, "Have faith in God."

Having Faith in Him is not based on wishful thinking or our own interpretation of things. When hard circumstances hit close to home it can be difficult to keep the faith so focusing on who God is and what we know of Him is a greater assurance that things will work out even if we don't see how or understand what God is doing. We saw last week that Habakkuk was in this situation; Israel was being invaded by the Babylonians and he did not understand why but because He trusted who God is he kept going to God with every concern and acknowledged Him for all that He is, (Habakkuk 1:12-13).

So what can we conclude from Habakkuk's story? Well when situations don't make sense and what we see seems to contradict what we know about God we go

to Him in reverence and awe to talk to Him about it. It is true that it is easier to have faith when we rationally understand and things go smoothly, but true faith is tested in times when we don't understand what God is doing, our faith is stretched and strengthened when we believe in who God is. Every trusting relationship is determined by the character of those involved, so is God worthy of our trust and faith? I believe so but let's find out.

We live in a privileged time for we can look at history and see countless proofs of His faithfulness. He was faithful in his promise of a Son to Abraham and Sarah although they doubted at first for it seemed too incredible to believe that at their advanced age of 90 and 100 that they could even conceive, Genesis 17:15-17, 21-22.

We know Abraham's faith was strengthened not only by receiving the promised son but overtime to the point that he trusted God even when God asked him for Isaac as a sacrifice. God promised a King and Messiah for His people, (Psalm 2:6-7, Hebrews 1:5). The Lord kept His promise just as He promised a son to Abraham God sent His Son to save us,(Romans 3:23-24). God showed us His amazing love through Jesus His Son for He is loving and merciful not because we were good enough, (Romans 5:8). God loves even the unlovable and unforgivable, nothing will stop His love for us. Just as a father or mother loves their child regardless if their child did something displeasing.

God Displays His great power throughout His marvelous creation and by the miraculous resurrection of Jesus Christ from the dead, (Romans 1:20, Romans

So then Beloved, what shall we believe and trust about God that makes Him Faith worthy? We know that God is Faithful, Loving and Powerful, even when we get confused and have concerns, we can trust Him as Habakkuk did and focus on Him instead of what we don't understand. The Lord He is our blessed assurance in all circumstances, He is holy and pure and He accomplishes all that He says and that it is for our good. His Faithful Love endures forever. This week if things go awry let us remember to place our faith in God and God alone and walk closely to Him...have a blessed week, Asherey Shalom..

Local student completes international marathon, wins title, supports local charity

the famous cataract.

 \bigcirc 1 year = \$35.0

Shelburne resident Clayton Rolston competed in the annual Niagara Falls International Marathon finishing 269 in a field of 1500 runners. Rolston also ran to raise funds for the David Gregory McKinnon Foundation. The 17 year-old Centre Dufferin District High School student has been training for 15 months for this

BY BRIAN LOCKHART

This was no jog in the park. At 42.2 kilometres, a full blown marathon is the grand daddy of long distance races.

Local student Clayton Rolston did what few people can say they have done.

He entered the Niagara Falls International Marathon and completed the distance in 3

All Are Welcome

He has been running for a few years after becoming interested

15 months.

dent has been training - on his

own – for this event for the past

in the sport through an older cousin who also is a runner. "I went to Blue Mountain and did the half marathon and did pretty good in that," Clayton

marathon and thought I could do a full marathon." He started training, he said by "going out by myself and running through the streets of

said. "Then I did another half

Shelburne." He runs between 10 and 12 ki-

lometres every time he goes out. He learned the nuances of long distance running - the pacing, the timing, how to make sure you have enough gas left in the tank to finish the course.

When he heard of the marathon in Niagara he thought it would be exciting to enter an international event.

"I spoke to my parents about it," he said. They backed him up on his plan and he began training in July 2012.

He had completed half that distance in other races, but going the full length of a marathon events planned in the future. was a lesson in discipline and determination.

"Around the 18th or 19th kilometre mark my legs were telling

ferin District High School stu- me not to go," Clayton said. "I started to push myself and finished - I felt pretty good about

> While Clayton did accomplish a personal goal, he also ran for another purpose. He was raising money for the David Gregory McKinnon Foundation.

David McKinnon was a

young man who was in need of a kidney transplant but died suddenly on the day of his scheduled transplant. The funds raised go toward

helping kids with similar illness with their treatments and other expenses. Clayton was moved by the

story of David McKinnon because they were the same age. "He was the same age as me

– 17 – when he died. He had his

whole life ahead of him," Clayton said. He was especially moved when he gave the funds to David McKinnon's mother who gave

him a tearful hug of thanks. "That made me feel very good," Clayton said, "If I could do another run for charity, I

would in a heartbeat." Long distance running is now part of his lifestyle with more

"I'm going to keep on training," Clayton said. "I want to do one full and two half marathons per year."
