

Let's all do our part to keep it safe!

March Break is upon us and the OPP would like to remind motorists to be extra vigilant as they travel throughout our communities, highways and roadways.

During this time, statistics have shown an increase of motorists on our roadways as people travel. The OPP is asking motorists to use extra patience and caution to arrive safely at their destinations.

Furthermore, citizens will notice an increase in the number of children and teenagers on our streets and in our communities next week. Be cognizant of their presence so that they can enjoy their well-deserved break.

Citizens are also asked to continue to be a viable part of 'neighbour safety' and to report any suspicious activities to the police.
